CTMC PROGRAMME

I enclose a copy of a letter received from Bob Wade. The applications referred to are currently being circulated round to appropriate members of the new team and when this has been completed, by 16 May, I will arrange for you to have a complete set of papers, as I do not believe it is feasible to photocopy this substantial mass of information.

By the way both Bob Wade and Stewart Massey will now be in GR&DC from 18 May onwards.

RET/LAP/46D

6 May, 1983

We have received the enclosed paper, in confidence, from the Canadian Tobacco Manufacturers Committee for comment. Could you please, by 16 May, look at the enclosed paper and inform me verbally of a number, on a scale from 0-10, that you would give it for its scientific merit in the context of its relevance to the interests of the tobacco industry. In some cases a joint opinion is requested. Would you please return these papers to Lesli Piper NO LATER THAN 16 MAY.
