Dear Dr. Miedreich,

I telephoned Mr. Edwards of A.S.L. Ltd. on Friday, 18th March, on the question of opening up a new colony of ICI mice.

ICI are not in a position to release any breeding stock within the next two or three months. Consequently, A.S.L. Ltd. are unable to start a new colony of mice in time to meet our delivery date of June 1st.

Could we ask you, therefore, to write to Mr. Edwards and confirm that the mice he will deliver under the agreed programme will be from the existing colony, i.e. the line of mice we have been using to date?

Yours sincerely,

C. I. Ayres
