101-11/WH/AHO/sos 9th February, 1966

Dear Mr. Edwards,

We should like to thank you, Mr. Johnston and Mr. Beech for the kind reception afforded to us when we visited your farm on 7th February, 1966, and give you in the following a brief summary of the individual points of your discussion:

1. We told you that we were fully satisfied with the mice supplied so far. The animals were delivered punctually and were of excellent quality.
2. We further told you that it is of great importance for our tests to know the genetic difference between your "substrain" of the ICI-mice and the "main strain" presently bred at ICI. You promised to look into this matter and to send us the respective data within about one or two weeks.
3. We discussed the possibility of introducing a new nucleus (caesarian-derived) from ICI, if necessary. You explained the difficulties involved and promised to inform us also on this point after thorough consideration. In particular, you promised to examine whether it is possible to supply the necessary number of mice of a new "substrain" from 1st June, 1966 (see new delivery programme, item 4.).
4. We agreed on an immediate replacement of the delivery programme of May 1965 by the following programme:
 - a) Until further notice, monthly supplies of 250 mice
7 weeks \pm 3 to 4 days old at the day of delivery.

- 2 -

Mr. Norman Edwards, London

2

9th February, 1966

- b) On 1st June, 1966, one supply of 1,200 mice
4 weeks \pm 3 to 4 days old at the day of delivery.
- c) On 1st September, 1966, and from then every three
months supplies of 900 mice 4 weeks \pm 3 to 4 days
old at the day of delivery.

For illustrating this programme, we enclose a graphic representation similar to that submitted to you in May 1965. You agreed to change the delivery programme - should this be necessary - provided that we inform you in time, i.e. at least two months in advance.

You promised to send us as soon as possible the prospectuses and price lists of the wheeled racks and of the Makrolon or polypropylene cages of different sizes.

We look forward to your reply with great interest and hope for further good co-operation.

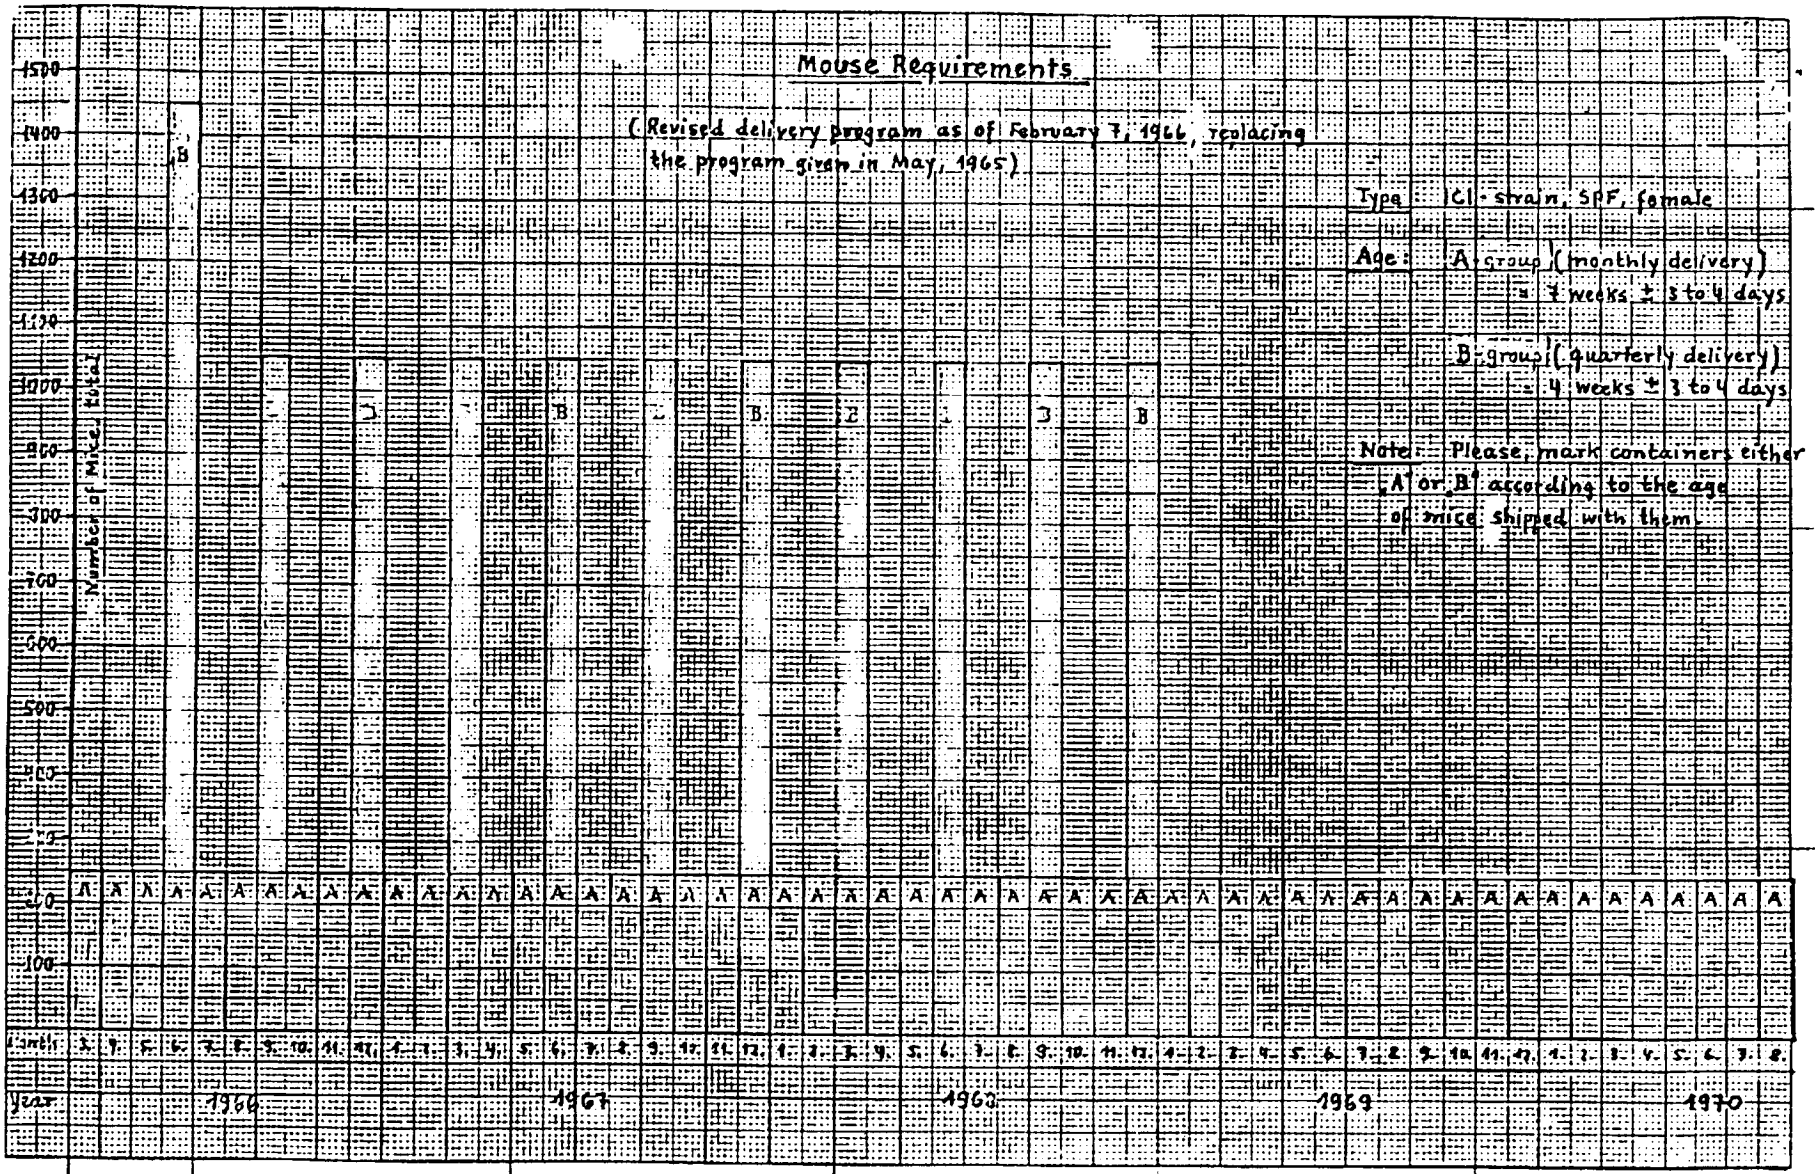

Yours sincerely,
Battelle-Institut e.V.

Dr. W. Miedreich
