

BIOLOGICAL RESEARCH

| <u>Company</u> | <u>In-house</u> £ | <u>Site</u> | <u>External</u> £ | <u>Remarks</u> |
|--|--|---|-----------------------------|---|
| <u>U.K.</u> | | | | |
| Imperial Tobacco <i>Firm</i> | - | Huntingdon, UK | 400,000 | 2 Inhalation Expts. - monkeys and hamsters |
| | | IFREB, France | 30,000 | Small Toxicity Study <i>Research in Switzerland</i> |
| Gallaher* | some | Battelle, Geneva | 500,000 (guesstimate) | Research in Switzerland will be very expensive. |
| | | Various hospitals | | |
| Carreras* | - | Hazleton Res. (Europe) Inveresk Laboratories Midhurst Med. Centre | 500,000(?) or a bit less | Smoking and Health research 50% of Budget, which exceeds £1 million |
| <u>U.S.A.</u> | | | | |
| Philip Morris | Negligible(?) <i>60 rats or 1000 mice</i> | InBiFo, Cologne | 1,000,000 | Both mouse skin and inhalation research on rats. Scale of InBiFo indi- cates substantial investment. |
| R.J. Reynolds | ? | Bioresearch Consultants Cambridge, (Mass.) Bioresearch Laboratories Montreal, Canada | ? | Both have been used in the past. Currently ? |
| <i>Council for Tobacco Research</i> Lorillard | some? | <i>Avon Research & Assocs. in Battelle</i> | | |

Considerable Difficult to disentangle specific projects from
"grants-in-aid", e.g. to GEFT, a TRC-like programme

*N.B. The Gallaher/Carreras/Celanese consortium (Budget £5m) to investigate CYTREL has been disbanded.
