Dear Leo,

You have received a copy of Intertek's reply to my letter on Bell-Laing. I should be pleased to have your laboratory comments and would like to know whether you are still of the opinion that we should go no further with them. That is my view.

If you agree, I intend to reply politely that we see no reason to change our view, possibly elaborate a little but certainly I will avoid entering a debate!

With kind regards,

Yours sincerely,
