AIRMAIL

29th January, 1962

Mr. T. H. Wade, Jr.,
P.O. Box 650,
Lynchville N.C.

Dear Mr. Wade,

I am sending you the report on work done here during October, November and December 1961, which I hope you will find of interest.

As you will realize, I have been experimenting in the last year with programming and reporting and have, I think, now reached a reasonably stable system which can remain settled for a year or two. The present report covers each item mentioned in the programme. A new system of project numbering was introduced from October 1st the preceding quarter (July, August and September) remains unnumbered in detail although this is covered generally in the Annual Report.

With kind regards,

Yours sincerely,

Encs
