My dear Jim,

³⁶
In my letter to you of the 3rd April, 1963, I said in the last paragraph that we would look into the question of the inventors. This is raised under (2) on page 2 of Daniel Kane's letter to Addison Yeaman, dated March 13th 1963.

⁴⁴
I have discussed this with Charles Ellis and he has prepared a memorandum, copy of which I attach to this letter. Perhaps you would consider this and let me know whether it is sufficient to settle the points at issue.

Yours sincerely,

J. L. Dancy
