Stewart has sent in a proposal for research work by Verner Knott at the Royal Ottawa Hospital in Canada. The proposal is entitled "Tobacco Smoking and Pain Relief: Phase II - Neuropsychophysiological assessment of the role of nicotine, anxiety and coping strategy" and is currently funded by the Canadian Tobacco Manufacturer's Council until the end of 1990. Stewart would like the SRG to consider funding the project from 1990 onwards.

Please send initial, written reactions as soon as possible; the project will be discussed in detail at the October meeting.

With best wishes.

Yours sincerely

DR S BOYSE
