Dear Helmut,

Please find enclosed a couple of first circulars concerning "Nic '90" in addition to the one that should have reached you by now. It would be appreciated if you distributed some among your colleagues.

In addition to the plenary lectures, we should have some short presentations of about 20-30 minutes. Preferentially these should cover areas outside those of the plenary lectures. I would appreciate if you came up with one or two such speakers and the corresponding titles. However, adhering to the EUCHEM rules, we will not be able to cover their costs and they will have to fill in the standard application form.

I would also welcome proposals from you as to subjects that should be discussed in smaller groups. You yourself may prepare such a topic or ask someone to do it. It will then be posted on the notice board in the beginning of the meeting and those of the participants who would like to contribute to the discussions can enlist to do so. The person who is making the proposition should also act as a chairman during the session. There can of course be several parallel sessions of this type.

I will be back later with the transfer of the money you kindly promised to contribute.

I am looking forward to hearing from you. Best personal regards.

Yours sincerely,

Curt Enzell
