London SW1

20 June 1989

Dear Sharon,

I am intending to run a Workshop on "Comparative Substance Use". I am sure that you recognise the importance of discussing these issues among scientists in this area. I enclose a draft programme to give you an idea of the format.

When you were first approached, you indicated that British American Tobacco would be interested in helping us. Accordingly, I wonder if your Company would consider providing some support, a sum of £15,000 from the Company would help to cover the costs for this Workshop with a donation. Cheques should be made payable to: "Finance Office, University of Reading" and sent to me. At the University, the project will be called: Comparative Substance Use Research.

We would be grateful for any assistance that you could give.

Yours sincerely,

A handwritten signature in cursive script, appearing to read 'David'.
