Dear Martin:

Here is a copy of the French work that we have initially conducted on Project Image.

I hope you can find someone who can translate it for you since some of the information in it and the hypotheses are very interesting. We should be in a quantitative phase of the exercise very soon.

I also recently received an outline of the number of projects that you people handed to look at in the next few months which some of the people in the department are very interested in. So if it is possible, it would be nice to receive copies of the reports as they become available.

Sincerely yours,

Robert Bexon
