REPORT NO. RD.1775-A

A REVIEW OF FLUE-CURING

Bob Wade, in a recent letter to Mr. A.L. Heard, requested an edited version of the above report (originally issued 17.12.80) for Delhi Research Station. All conclusions have been eliminated, and so have references to internal reports apart from two that have already been issued to Delhi. I should be grateful if you would let me know whether I may send this edited version to Bob Wade.
