Dear Don

I very much look forward (ableit with some trepidation) to the meeting on the 9 December 1981.

I thought you might be interested to have my attached file note of the main notes that you made at the NMA Workshop meeting together with my outline response.

I also enclose a copy of the slide entitled "Basic Approach to Government and Medical Authorities" - which is a modification of the one that I gave to you and the others at the INFOTAB meeting at Baden Baden. The modifications were made in consultation with Brown & Williamson.

So that we all have the same background information, I have copied this letter to Tim Finnegan and Ernie pepples.

With kind regards

Yours sincerely
