Dear Ian:

The end of April, and with it the Smoking Behavior Conference, is quickly approaching. I have enclosed the final program and some information about the meeting site.

Reservations for all delegates are confirmed at the Hilton for the nights of Thursday, April 21 through Tuesday, April 26. Our first scheduled group activities will be the Thursday 6:00 p.m. Cocktail Hour and the following dinner; however, two B&W advance arrivals (Ann Kerr and Ron Brotzge) will be on the premises during that day.

For the convenience of the session chairpersons, I would appreciate that, where possible, speakers provide abstracts of their presentations to both the appropriate chairperson and to me, prior to the meeting. For presenters, we will have an overhead projector for transparencies, a 35 mm slide projector, and equipment to accommodate 3/4" U.S. videotape cassettes. Please advise if you will require equipment to play 3/4" PAL cassettes.

Finally, I will forward to you the ACHEMS Meeting abstract and program as soon as I receive them, likely within the next two weeks.

I look forward to seeing you in April -- meet you at the Hilton!

With kind regards,

Bill
