

Note for Mr. E.A.A. Bruell, Chairman, BATCo.

1. Passive Smoking

I enclose copy of letter sent to Brian Simpson.

2. Low Risk Epidemiology

I enclose copy of correspondence from Professor Mohr and his proposal. This is not entirely satisfactory as it actually omits the conference stage, but believe it can be modified to meet everybody's requirements.

3. Scientific Research Group

The second meeting will take place in Montreal next week and I enclose a copy of the programme.

Due to the S.R.G. meeting, the Annual Research Conference, other company visits and holidays, with the exception of August 26th (Millbank) and 27th (Southampton), I shall not be in the office until Monday September 15th.
