CHAIRMAN'S ADVISORY CONFERENCE NO.2

I thought I would just confirm all that we discussed here, in London, about the above Conference.

All concerned are in agreement with the new dates proposed and the CAC No. 2 will, therefore, take place in Australia from the 15th to 20th May 1977. The details will be sent to you when Noel Foley has had time to decide the exact location.

Once the summer is over in the northern hemisphere, I will be writing to you with suggestions as to the content of the meeting, inviting you also to contribute any thoughts that you may have about the Conference in detail, or about any overall ideas that may have occurred to you. I would remind you that we decided at Hot Springs that the Smoking and Health section should be increased to two full days, leaving two full days also for the other topics plus an extra half day for any other matters, which would be the Friday morning. I believe we should allow for delegates getting away on the Friday afternoon/evening so that the long journey back to Europe and North America can be completed by the Sunday evening, thus allowing people to meet any commitment by the following Monday morning.

Since it appeared to me to be very successful, I believe we should follow the Hot Springs practice of sending out as much pre-Conference matter as is possible beforehand, which will save time at the meeting when essential matters mainly can be dealt with.

I am already anticipating keenly our next get-together.

Yours sincerely,

(P. MACADAM)
