Dr. K.D. Kilburn,  
38 Regent's Park Road,  
SOUTHAMPTON SO91PE U.K.

Dear Keith,

I must apologise to you for not having answered your letter to Bob Wade dated June 4th, concerning the transfer efficiency of nicotine from nicotine salts in Cytrel to the mainstream smoke. Unfortunately, due to unforeseen difficulties we have been unable to manufacture cigarettes using 100% Cytrel for the nicotine determinations. It is expected that these cigarettes will be manufactured approximately August 26th and we hope to advise you soon afterwards as to the nicotine transfer efficiency.

Yours sincerely,

*Handwritten signature: S.M. Candlish*
