31st July, 1969

Dr. T. A. Smith,
P.O. Box 6500,
MONTREAL.

Dear Tom,

I had not appreciated until very recently that your draft report to us on oxides of nitrogen was to represent a paper to the Tobacco Chemists' Research Conference. A number of the people in R.& D.E. have looked at this, and I enclose a copy of their comments, as they may be of some use to you.

With kindest regards,

Yours sincerely,
