Dear Leo,

Laboratory Report No.L.133-F

EFFECT OF PUFF PARAMETER ON SMOKE CHEMISTRY

On Figure 3, "Comparison of Pressure Drop Profiles Ethel MK VI Smoking Machine, 1,2 & 3 Second Duration", please delete the Right Hand Axis labelled "Approx. Puff Velocity (ml/sec.)".

Such an additional right hand axis is correctly included in Fig.4 and was mistakenly transferred to Fig.3.

We apologise for the error.

With kind regards,

Yours sincerely,
