R. S. Wade, Esq.,
P.O. Box 6500,
MONTREAL.

Dear Bob,

I note in your last Quarterly Report that you have a method in operation for the measurement of nitric oxide in cigarette smoke. We are having trouble with our method and have started a collaboration with members of T.R.C. to test the various procedures which are now available in the U.K. for this measurement.

To help us, I wonder if your laboratory would undertake a measurement of nitric oxide on a TRC cigarette; this will allow us to have a good comparison of all the procedures which are available.

I trust all is going well with you, and I look forward to meeting you again in June.

With kindest regards,

Yours sincerely,

C.c. Dr.S.J.Green
