Dr. V.C. Runeckles,
I.T.Co. Canada,
P.O. Box 6500,
MONTREAL,
Quebec,
Canada.

Dear Vic,

It is now several months since I completed the temperature measurements on the cigarettes that you sent us that had been modified by Messrs. Bell, Jones and Laing, and I am wondering if you would like the remaining cigarettes returned to you, as I know that they were in limited supply. If not, I shall destroy those that remain as we do not usually like to keep cigarettes in our stores for an indefinite length of time. Approximately sixty of each type of cigarette remain.

With kind regards,

Yours sincerely,

J.D. BACKHURST.
