MONTREAL.

Dr. J.D. Backhurst,
38 Regents Park Road,
Millbrook,
SOUTHAMPTON, ENGLAND.

Dear Dudley,

Thanks to our postal strike we got your letter only on Friday, soon after I returned. We are sending you by airmail 40 cigarettes of each of the 6 unmodified cigarettes, viz. RL268A, B, C, E, F, G. I hope they prove useful.

Thank you for your hospitality and helpful discussions last month. Will you pass on a message to Ray Thornton for me? He asked about our source of C₁₄-B.P. (labelled in 7,10 positions). We had it from Bio-Rad Isotope Specialties Co. Inc., 103, South Main N., Burbank, California, but I suspect they have been incorporated into Calbiochem, who presently do not list this item. I am making some inquiries, and will write to him when I get more news.

Yours sincerely

TAS/ja
