Montreal, P.Q., CANADA.

Dear Vic,

Many thanks for your letter of the 15th July on the subject of our proposed radio-active paper. The points you raise are valid and we will do something about them.

With regard to your question of the reaction of smoke with rubber material, this was discussed in Sam Evelyn's report No. L.234-F, which showed that the acrolein content was reduced in the presence of rubber containers.

Many thanks for your help,

Kind regards,

Yours sincerely,
