L.C. Laporte, Esq.,  
Imperial Tobacco Co. of Canada, Ltd.,  
P.O. Box 6500, Montreal, CANADA.

Dear Mr. Laporte,

Enclosed are copies Nos. 8, 9 and 10 of Report No. RD.578-R, which describes a mapping technique whereby we believe analytical differences between smokes can be related. This appears to us to be quite a valuable tool not only for G.L.C. results, but for any other analytical data.

I would be interested to hear the reactions of your research people on the useability or otherwise of this technique.

Best wishes,

Yours sincerely,

Encs. 3.
