October 27th, 1967

Dr. I. W. Hughes,  
Research & Development Establishment,  
Regent's Park Rd.,  
Southampton, England.

Dear Wally:

Thank you for your letter of October 16th, enclosing Keith Kilburn's report on the Symposium on Mass Spectrometry. Although we are a long way from acquiring such an instrument, it is always valuable to be kept up to date.

I acknowledge, too, the receipt of the copy of the proposed publication on smoke particle growth. Visitors to Montreal and the absence of several of our people on visits elsewhere and my involvement with programme and budget preparation have conspired to occupy all of my time for a week or so. However, I hope to get our comments to you in a week or ten days' time.

Finally, many thanks for the sample of ground, foamed polyurethane which arrived earlier in the week. We expect to initiate some tests with it next week.

With all best wishes,

Sincerely,

V. C. Runeckles
