Dr. V.C. Lunceles,  
P.O. Box 6500,  
Montreal, Canada.

Dear Vic,

We are considering publishing a paper on the growth of cigarette smoke particles in the Sietrage, and I am enclosing a draft note on which the paper will be based.

I would appreciate

- (a) knowing whether you can see any reason why we should not publish this;
- (b) any comments or criticisms you might have on the form of the paper or the nature of the work.

With kind regards,

Yours sincerely,

Encs. 1.
