27th November, 1959

Messrs. George Scott & Son (London) Limited,
Levenbank,
Leven,
Fife...Scotland.

Attention I.S. Ling, Esq.

Dear Sirs,

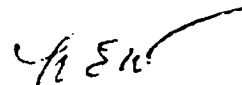

R.A.3 DISINTEGRATOR FOR CANADA

We wish to acknowledge receipt of your letter of the 20th November concerning the possible supply of R.A.3 Disintegrators for Canada. It would be of considerable interest to us if you would forward copies of the quotations which you have already submitted to the Imperial Tobacco Co. (Canada) Ltd.

With regard to the units which might be required by our Associates in Germany, it is quite in order for you to quote for the supply of 40 h.p. motors at this stage. If it is necessary to substitute 60 h.p. motors we will advise you within the course of the next few days, and naturally we will expect you to modify your prices accordingly.

We trust that this will clarify the position.

Yours faithfully,
BRITISH-AMERICAN TOBACCO COMPANY LIMITED
