

RTBS/EF

27th August, 1954.

L. C. Laporte Esq.,
The Imperial Tobacco Company of Canada, Limited,
3710, St. Antoine Street,
MONTREAL, CANADA.

My dear Laporte,

Under separate cover and by air mail I am sending forward to you a copy of the Standard Methods of Analysis of the Research Department of British-American Tobacco Company Limited. In due time when Dr. Evers arrives in your country this will no doubt be a subject for discussion between you and him.

A copy is also going forward to Dr. Tucker, and we shall all need to produce a joint standard common to the three laboratories, if that is practicable. If it is not, then the method of comparing results obtained by different methods has to be standardised.

All of this is completely out of my sphere and must very naturally lie between you and Evers and Tucker.

Evers has sailed and will be in the States on Monday or Tuesday.

I look forward to seeing you in December.

With kindest regards,

Yours sincerely,

100114227
