To the attention of Dr. E. Massey,

Enclosed are the the 4 cigarette samples for testing (100 of each):

- Check 28 (in packs) - Plain-end Control cigarettes.
- 837 - Filter cigarette with all-lamina flue-cured V-09 blend (untreated).
- 645 - As 837 but with full tobacco treatment.
- 772 (marked on filter) - As 837 but no solubles returned.

Please let me know if further information is required.

Kind regards,

Andrew Porter
