

Ames tests on 3 condensates + 2 control samples

TA98 + S9 TA100 + S9

assay on 3 occasions

£ 2250

Chromosome aberrations - 3 condensate

CHO cell line - S9

3 doses per condensate triplicate flasks 100 each

+ positive control + solvent 5 £ 1550 per cond

U scheduled DNA synthesis

cultured rat hepatocytes - 3 condensate

3 doses per condensate - 4 replicate flasks
