GR & DC,  
38 Regents Park Road,  
Millbrook,  
Southampton SO9 1PE,  
ENGLAND.

May 30, 1979.

Dear Dr. Blackman,

This is to thank you for so kindly making it possible for me to spend three days with the Life Sciences and other groups in GR & DC. I am particularly grateful to Dr. R. Binns for giving me so much of his valuable time, and making my stay in Southampton pleasant as well as worthwhile.

I was particularly impressed with the progress made in the rodent smoke inhalation studies, since I last visited GR & DC three years ago. The facilities in Life Sciences are a model of what they should be in the field of inhalation toxicology, and the research activities an inspiration to people like me working in smaller laboratories. I am also looking forward to receiving the research cigarettes Dr. S. Evelyn has promised to send me so that we may compare the results of our short-term tests with the long-term carcinogenic data from your end.

With best wishes.

Yours sincerely,

*M. H. Billimoria*

M.H. Billimoria.
