Dear Richard:

A further meeting with Drs. Hogg and Witschi was held on September 23 to review the proposals for tests made by Drs. Witschi, Bilimoria and Ms. Johnson. There was also discussion pertaining to the preparation of the grant proposal.

Tom Smith has again prepared a summary of the meeting and this is enclosed for your information and comments. I think we can say the wheels have been well set in motion and if you have suggestions to make at this stage we would appreciate having them as soon as possible.

With kind regards,

Yours sincerely,
