Dear Bob,

I had a good holiday down in Nova Scotia and now, unfortunately, have to get back in the old routine.

When I left Montreal, I think that we had made some progress during the week and hopefully the general ideas can be formalised within the next month or two. I will be interested to know of any progress that Jim Hogg may make and if it is decided to go ahead on an official basis with McGill. I would like to see any of the project proposals which may be written. Although the general approach to re-organising the Montreal biological group seems to be clear, there is quite a lot of detailed planning to be done. I did feel that I was leaving everyone with a lot of work to do, and if I can be of any help, please let me know.

Thanks for the trouble you took in making sure my visit to Montreal was a pleasant one. Please give my regards to Billimoria and Joy Jackson.

With kind regards,

Yours sincerely,

RB
