Millbrook, Southampton SO9 1PE,  
England.

Dear Sam:

I have received a copy of the letter about the Southampton meeting which you sent to Montreal. Unfortunately, I did not get the original posted to Seattle.

You should have received the two batches of notes sent over the last week or so. Most of the relevant comment was probably in the first set, relating to the NCI meeting in Washington. Judging from that workshop, we will have a tough job in three days to come up with something that everyone will be willing to accept wholeheartedly. Still, after the draft guidelines this meeting is a good idea, as is the idea of open-ended sessions. I think we may need them!

Sincerely,

RB/gh
