

F

MEMORANDUM

TO: I Snowden  
cc N. Davis  
FROM: Graham Burgess  
DATE: 16 March, 1995  
SUBJECT: 1995 KEY AREA PAPERS

At the 15th March BMB meeting, the Board agreed that the following amendments should be made to your draft 1995 Key Area Paper on leaf:-

- 1. Section 1.9 re Crop Expenses: Could you please amend the second sentence of the first paragraph to make it clear that this refers to per kilo expenses /
- 2. Section 2.1 re Quantity of Leaf Exports: There was some confusion as to exactly what is meant by 'committed' orders in the second sentence. Could you please clarify what is meant by this (i.e. that it is not a legally binding order) /
- 3. Section 4.4 re World Supply/Stocks: It was considered that the statement that '... green leaf prices must increase.' (start of the fourth paragraph) gives the wrong impression. Could you please re-write this sentence along the lines of:-  
  
    'It is essential to protect the supply of the raw material and green leaf prices can be expected to increase as the world supply situation is corrected.' /
- 4. Section 6.2 re Training: Could you please add something to indicate that a training course is being developed in relation to GLT processing. /

Could you please let me have an amended version of the paper by Friday, 24th March.

Thanks

*GLT*
