NEUKOMAL/BORNET PROCESS

Visit to SEITA, Paris 22nd December, 1960

Would you please make the following corrections and additions to the copy of the above report.

Page 1

Dr. J. Guzin is Director, Biological Research Services, SEITA.

Page 1, line 5

In place of "Gaullois" insert "Gauloise"

Page 1, line 8 )

Page 6, line 6 )

In place of "Ormond" insert "Ormond"

Page 2, line 16

In place of "... any good method for making cigarettes safe." read "... any good system for diminishing pathogenic effects of tobacco smoke."

Page 2, line 19

Following "... in the long run." insert "However, if the Regie became convinced of the efficacy of any such system, it would be applied to the full production. There was no question of marketing 'protected' brands alongside 'non-protected' brands."

Page 6, line 2

Following "... a satisfactory answer, either." insert "G.F.T. referred to the twenty-nine mice that were unaccounted for in the Nicod experiment and Vaissereau remarked that Nicod's dismissal of them was 'too simple'. Further, if some tolerance was allowed on the percentages of tumours produced by reason of these lost mice, there was very little between the figures for treated and untreated tobaccos."

Page 7, line 23

In place of "... Ruffy letter of authorisation." insert "letter signed by his subordinate (Ruffy)."
