Dear David:

In reviewing some notes which I had made during my visit to Southampton in May, I discovered I had promised to send you the report on the analyses of air samples for dust and nicotine in our Montreal Plant. I trust you will forgive my oversight.

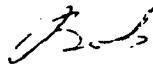

The work was done for us by IECbeak, Montreal and they have worldwide connections. If you should be interested in learning the names of any of their affiliates in other countries we could find out for you.

You had also asked for the costs involved and these are shown on the third page of the enclosed document. Unfortunately, the report is only available in French but I imagine that this does not pose a significant problem.

We are now arranging to have similar analyses made in all of our other plants. This work will probably be completed by year end.

With kind regards,

Yours sincerely,

R.S. Wade
