ENGLAND

Dear Taj,

Just a short note to thank you and the other people in GR & DC for receiving the ITL team. We found the discussions very useful and they certainly served to clarify a number of issues in our minds.

In due course, we look forward to receiving the various samples and additional pieces of information you agreed to send.

Once again, many thanks for your time and hospitality which was much appreciated. Please also pass on my best regards to David.

With kind regards,

Yours sincerely,

S.R. Massey
