British-American Tobacco Co. Ltd.,
Group R & D Centre,
Regents Park Road,
Southampton SO9 1PE,
ENGLAND.

September 27, 1983.

Dear David,

Further to our telephone discussion I confirm that the following four people will be visiting GR & DC on the 24th. and 25th. October:-

<u>R. & D.:</u>	S.R. Massey Tom Smith
<u>Leaf Blending:</u>	Ed Lambert
<u>Marketing:</u>	David Crowell

Please find attached a proposed agenda for the discussions covering the main points of interest, together with background notes on projects ERIE and CRAWFORD. Since the products being developed in these two projects are likely to contain expanded tobacco we would also like some discussion on the use of DIET as a design tool.

If it is possible for us to finish the formal discussions some time after lunch on the Tuesday, then I would like to arrange for Dave Crowell to visit Charter Research and for Ed Lambert and Tom Smith to have further informal discussion with Bob Lowe.

Finally, I will be sending for your attention 200 Players Special Blend and 200 du Maurier K.S. in order that people can have an opportunity to smoke the types of products we will be discussing.

With kind regards,

Yours sincerely,

S. R. MASSEY

SRM/ds
