

Practitioner Information

Practitioner Information includes data on practitioners who provide services insured by the Medical Services Plan and comprises expenditure and paid services by specialty, service code and geographic area.

The following criteria are applied in addition to those listed in the Methodological Notes section.

Practitioner Counts

Practitioners are counted only once per fiscal year using the following conditions:

1. Only practitioners registered with the MSP of British Columbia are included.
2. Practitioners have an expenditure total greater than 0 (zero) in the fiscal year.
3. Practitioners are assigned to one Local Health Area (LHA) for each fiscal year based on where the most payments were made. The practitioner's address is used as a proxy for location.
4. Practitioners with unknown postal codes or LHA are assigned to "LHA Unknown".
5. Practitioners are assigned one specialty for each fiscal year using the Most Recent Specialty.

Practitioner Specialty

Public Health (21) and Occupational Medicine (23) are rolled into General Practice, and Osteopathy (34) is rolled into Chiropractor (30).

Population

Population figures are from the PEOPLE 36 Estimates and Projections produced by BC Stats.
